

### Task Three:

This week in *Biblical Archeology*, I will be writing about Joseph's ethical wills and how they are still important today. It is interesting to see how clearly the wills' messages relate to modern day happenings, like books, movies, and television shows. The worldwide best-selling book by Veronica Roth, called *Divergent* has a strong connection to one of lessons told in Joseph's will. The main character of the novel, Tris, joins the community of Dauntless, meaning bravery. At first, she has difficulty succeeding in the Dauntless training course. She started at a low point in her life, just like when Joseph was in jail. She then achieved greatness by working hard and becoming the number one member of her training group. This relates directly to Joseph advancing from being a prisoner to second to the Pharaoh. Both of them overcame obstacles in their lives and gained success.
