

Global Climate Change

Hidalgo's 5th Grade Guide to Global Climate Change

WEBQUEST: <http://epa.gov/climatechange/kids/>

LEARN THE BASICS

Create a summary from this section (MOST IMPORTANT WHAT, WHERE, WHY and HOW)

SEE THE IMPACTS

Create a cause/effect chart with at least 2 facts for:

- Signs of Climate (x2)
- Effects on People (x2)

--	--

THINK LIKE A SCIENTIST

<http://epa.gov/climatechange/kids/scientists/ruled-out.html>

Can you rule out natural factors as the main cause of today's climate change?

Take the climate challenge. Write about your results.

BE PART OF THE SOLUTION

<http://epa.gov/climatechange/kids/solutions/actions/index.html>

Create an artistic expression (illustrations, pictures from the internet, poem, etc.) to explain the 6 ways we can stop global climate change. Be ready to present!
