

### **Sukkah Prototype Presentations - Peer Feedforward**

I. Evaluate how fully and clearly the presentation answers the required questions.

Question	Check if Excellent	Check if Not Yet	Feedforward
Why did you chose to prototype this particular design?			
How did you choose to prototype (ie, cardboard, 3D print, etc.), and why?			
What are the Sukkah's dimensions, and what scale did you use?			
What (if anything) about your design would probably be the hardest part to actually build?			
Why should the panel select your prototype?			

Did the presentation include a description of the prototype building process, including documentation of the process such as photos of progress along the way?

\_\_\_\_\_ Yes

\_\_\_\_\_ No
