

**Big Idea:** Physical and social environments respond to forces, direct and indirect.

### Essential Questions:

1. What is the nature of direct force?
2. What is the nature of indirect force?
3. How do forces in the physical world cause change?
4. How do forces in the social world cause change?
5. How do these forces play a role in my life?

Know	Do
Direct Force (Physical)	Identify different forces.
Direct Force (Social)	Apply and measure impact of forces
Indirect Force (Physical)	Compare and contrast different forces
Indirect Force (Social)	Assess forces' roles on students' own lives
