

Seeing the Good in Bad (to the tune of "Let it Be")

There have always been the bad things

And there always seem to be

One person couldn't sing a song

With duet's harmony

And there will always be the bad things

Though escape them, you may try

Try to sing a child to sleep

With just one lullaby

Let them sing 4x

Whisper words of courage,

Let them sing

But you must always see the good in bad

though often it is hard

Cuz you know there's always hope

Like shining, sparkling stars

Yeah, those people have it really bad

All men and women say

We need to tell them, "YOU CAN HELP"

There really is a way

We all scream 4x

Save the children of Darfur,

We all scream

In Darfur there's a genocide
Carried out by the Janjaweed
Muslim Arab Nomads
Janjaweed

They attack African farmers
Rape them, kill them, watch them bleed
Raze entire villages
Yes, indeed

Yes indeed 4x

Raze entire villages

Yes indeed.

In Darfur people could once share land and
Coexist quite naturally
living side by side,
just let them be

Omar el-Bashir, Sudan's dictator,
is filled with hate and filled with greed
kids lose parents daily
and they grieve

And they grieve 4x

Kids lose parents daily

And they grieve

Sudan's evil dictator is
Wanted by the ICC
"Omar el-Bashir, how
Do you plead?"

400,000 people dead
3 million others had to flee
Mr Dictator, how
Do you plead?

Do you plead 4X
Mr. Dictator
How do you plead?

All children have basic rights so
They don't live in poverty
Parents, schooling, food security

All Africans want education
For kids to live productively
Schools and education
What they need

What they need 4x
Schools and education
What they need

We are all responsible to
Help them in their time of need
Raise our voice, write letters
Set them free.

Let's work together now to change
Darfur's brutal reality
We must make a difference
You and me

You and me 4x
We must make a difference
You and me

Let's Change the world. It just takes cents and
Read the world a new decree
One where children all live
Peacefully

And when we change the world. It
Just takes cents, together, you and me
Peace will come to Darfur
Just you see!

Just you see 4x
Peace will come to Darfur
Just you see.
