

Your Excellency,

I am an 11 year old child from Denver, Colorado. I am writing to you because I believe that what President Al Bashir is doing is wrong. I go to a Jewish day school and I know a lot about the Holocaust. What Al Bashir is doing is very similar. Personally, I would give Al Bashir the visa to get into the country, then let him make his speech before you arrest. If you arrest him immediately, you might not get the information you need out of him. Turn him in to the ICC right after you arrest him. He can do no harm to the USA because we have great security and an amazing army. I hope you realize what he is doing.

Sincerely,

Jesse

Your excellency:

My name is Zehariah and I live in Denver, Colorado. I am Jewish and I have my opinions on the 7million people killed in the holocaust. Al-Bashir's killing of his own 3 million, in my point of view is awful and unlawful. All those children, parent less, and all those people without a family, their village and community destroyed. The people in the refugee camps, without clean water, riddled with disease, and living without education. I petition that you arrest him and give justice to all those people.

Sincerely,

Zehariah

Your excellency,

We are from denver Jewish Day School and we are 11. We are very concerned about Al-Bashir coming to the UN to address the other heads of state. If you do give him a visa to come to our country we are okay with that, but we think he is not a safe and we strongly think that you should turn him in into the ICC. We think he is like a present Hitler and has already killed 3 million people and will continue unless we stop him. We are also concerned about Sudan, Africa and the way he has been treating the people who don't agree with what he thinks. We are children and we have a future and we want the children in Sudan to have the same opportunitie as we do. When we herd about what he's doing in Sudan we thought the Holocaust and what the people who aren't Germans and what they had to go through. Us being Jews we learn a lot about the Holocaust and what they had to go through. I hope you think about our suggestions.

Your Excellency,

My friend and I are eleven years old and attend Denver Jewish Day School. We have heard that Al-Bashir wants to come to America and address the other heads of state but first has to have a visa from you. We think it is very important that you do not give him a chance to talk to the UN but right when he comes off the plane arrest him and turn him in to the International Criminal Court . He is not a safe person and a lot of people will be in danger. We do not think it is fair Al-Bashir to come and talk to the other heads of states. We are strongly also concerned about Sudan he is not treating people who are different than him fairly. He does not deserve to talk to the UN he should be standing in trial at the ICC Al-Bashir is like Hitler and we never want that to happen again. We hope you stop him!

I believe that President Al-Bashir is a modern day Hitler and Stalin. My Great Grandparents were in Russia when Stalin was murdering all of his people. He used to describe what it was like seeing all the kids running trying to avoid all the bullets flying in the air. To this day when we learn about the Holocaust and we see the pictures of carts full of dead bodies it makes it very hard to know that President Al-Bashir is doing the same thing. I would pray to God that you listen to all the letters and give the go ahead to the United States to issue a ICC arrest warrant to get him off the streets and stop him from murdering any more people or children.

Your Excellency:

What president Al Bashir has been doing is a horrible thing. I realize that we can not stop it at the moment or right now but the longer we go without doing something, the more people this man will kill. But don't look at what is happening now look at the future when this man runs out of people to kill in his own country he will start to move in on other nations. You MUST realize that when he runs out of people wars will be started. Many people believe he is a god and yet he kills them to. You and the others have the power to stop this.

I am a Jewish 12 year old child and I know about massacre and I would not like to have another holocaust for other people or anybody. This man needs to be stopped. These children are being separated from their families and forced to run to camps not knowing if their mom and dad are right behind them or if they are already dead. Without the chance to look back they keep running until they think they are in some kind of safety camp or place. Imagine this happening to you would you really want America the land of free to just stand by and watch you and your family die, or would you want them to come in with help with food and supplies. I am not asking you to just run in and kill this man but I suggest ordering an operation of a capture or kill mission on him this man does not belong in front of the United nations speaking about how great his country is, he belongs in front of the ICC speaking his awful case.

I do not have the power to stop this man but the United nations do have the power. When united together you can all bring this man down and have him in jail and all of his people safe and sound with a new president and a loving country.

Sincerely,
Ayden

Your Excellency,

I am a twelve-year-old student in Denver, Colorado. I am writing you this letter today concerning President Bashir. In school I have learned about the terrible things that Al-Bashir has done to the people of Darfur, and I think that of the terrible things he has done one of the most horrifying is what he is doing to the kids. Not only does he kill them but he kills their future, he is cutting them off from a successful life in their future by not letting them have any source of education. Not only that but he is turning tens of thousands of kids into orphans, separating them from their parents and families. As a boy attending a Jewish day school I have learned about the terrible things that Adolf Hitler did to millions of people and how we took action freeing the people enslaved in camps, and I ask why are we not taking the same actions here. I request that you exercise your judgment on this matter to provide the Obama Administration with maximum flexibility to aid the ICC in its fight for justice for the victims of Darfur.

Subject: Waiver of US obligations re Pres Al-Bashir

Your Excellency,

I want you to take action against president Al-Bashir and revoke his visa so he will be arrested. I feel that in order to preserve the people of Darfur in the future, you need to do something against him now. I can personally connect to this because Hitler targeted my ancestors. I think in order to prevent another holocaust type event the president will need to be incarcerated. I hope that you understand that the futures of little kids and future of all Darfurians depend on a decision you will make later this week.

Your Excellency,

I believe that President Al-Bashir should not be given a visa or granted immunity. The reason that i think that is because he is a mass murderer. This is an extremely horrid thing to do, he is the modern Hitler and is responsible for the murders of over 3 million people. Instead of giving him a visa you should enforce the ICC arrest warrants. As a Jew i can relate to these people, he is murdering them because they because they are AFRICAN Muslims and he is an Arab muslim. He does not deserve the honor of addressing to the UN. Thank you for taking the time to read this and I hope this has changed your opinion on President Bashir.

Your Excellency,

My name is Danit Schinagel, I am a student at Denver Jewish Day School, currently in the eighth grade. I am sure you are aware of the horrors of the Holocaust, you don't have to be Jewish to know that more than six million Jews, Gypsies, and Homosexuals were killed. Children lost their parents, their siblings, their friends, and their own lives. Hitler killed anyone who's beliefs differed from his, and during that time period, there was nothing that anyone could do about it. President Omar al-Bashir is the modern day Hitler; he takes innocent lives, and the people of Darfur, Sudan have to live in constant fear that their life can be taken at any moment by this terrorist. I repeat, during the Holocaust, no one had anything that they could do, the problem that Hitler brought upon the people didn't have an easy solution. Omar Al-Bashir has no excuse for what he is doing, murder is a crime, it is an insult to all humanity that this man has not been taken to the Hague to face trial. Don't you think that this man has done enough? Speaking to the United Nations is an honor; who that kills a fellow human being deserves any honor what so ever? Please consider the fact that the only place this man deserves to be is sitting in court, admitting his crimes. Life is too valuable to be taken by someone who doesn't like the color of your skin, or what country you are from.

Sincerely,

Danit

Your Excellency

As a child, and as a Jew, i am appalled that you would dare to let a terrible man into the US, no less the UN General Assembly. As a child, a worry deeply for these children in Darfur who are being ceaselessly murdered by this man. Would you have let hitler into your general assembly? This man deserves to be tried for his horrible war crimes. As a Jew, i cannot stand to watch as this man evolves into a modern hitler, so please, either deny him entry in to the US, or let him in, and have him arrested on the spot. This madness has lasted for ten years, and has to stop now. shall you be know as the Secretary General who let a murderer into the UN? This man should not be given the honor of addressing the UN. This man is responsible for three million deaths, and in the US, most who have killed people are either locked away for the rest of their lives, or killed. Why is this man different. Please take action quickly.

Sincerely,

Sam

Your Excellency,

Hi my name is Arielle Williamson. I am student at a Jewish Day School. Being a Jew especially at a Jewish school, I learn much about the holocaust and all the people that got killed because of Hitler. He killed people because they weren't like him. If they had different beliefs in religion, if they were disabled, gay, gypsies and other people different than him, he would kill him. In the end Hitler ended the life of 6 million Jews. President Al- Bashir is a Hitler of Sudan. He has already murdered over 3 million people. Its not fair for innocent people to be killed for no reason. Just because he doesn't like people different than him doesn't make it fair or right to kill other people. He should not be able to live in this world. He should have to go to the International Criminal Court and they should decide what to do with him. He has a disgusting mind and get joy out of killing people. He is splitting up families, ending lives of people who have done nothing bad in the world. He cant accept them for who they are. Though it may be dangerous, I think it is in the best interest of the world to let President al- Bashir into the US and as soon as he gets off of the plane, arrest him and send him to the International Criminal Court. If we don't do this, President al- Bashir could kill more people and make people live in fear. He can end up killing as much people as were killed in the holocaust. If we let him in, we can finally catch this terrible mass murderer. He doesn't deserve to address the UN.
